

PHYSICS - AP

2021-2022 School Year Fee

Fee and Spend Plan

Approved Fee	Spend Plan Items this fee covers
\$65	\$50 for physics lagoon day \$15 for lunch
\$15	Miscellaneous engineering practices challenges students are required to build. Typical materials are covered or use common things students have around. It's impossible to foresee or purchase all that a student might want to use or try. So a student may purchase a few miscellaneous things for such projects throughout the year. For example a student may want to use peanut butter to cradle an egg in for an egg drop, or need a little duct tape to finish a cardboard boat at home, or use a piece of all-thread as a break on a car. None of these are required and we provide the typical materials but may want to try something novel and may or may not have it already available to them.
